

DATA SHEET

MAGNETITE ANODE TYPE: MA-SEA

Surrounding electrolyte: flowing seawater or brackish water

Application fields: platforms, jetties, harbours

TECHNICAL DATA

Diameter	60	mm
Total length	760	mm
Effective length	710	mm
Total weight	6.0	kg
Min. effective mass	4.7	kg
Surface area	13.4	dm ²
Max. current load	16.0	A

Standard cable types: NYY 1 x 10 mm² or HO7RNF 1 x 10 mm²

Cable length to be defined by order.

Other cable types on request.
